OBJECTIVE:

Software Developer with 3 years of experience in building and maintaining clean and responsive web apps and websites.

PROFESSIONAL SUMMARY:

3 years experienced UI Developer adept at designing new user-friendly websites and proficient in identifying user requirements to analyze their needs. Equipped with JavaScript technologies to create and develop future products.

OCCUPATIONAL COUNTER:

- Worked at Swaragh Technologies as a UI Developer from July 2021.
- Worked at STRATACACHE as a Software Developer from March 2024.
- Supported team members in balancing functional and aesthetic design to create a striking website outlook, and provided training to new joiners.
- Collaborated with colleagues and the team in creating sample designs for the company website.

WORK EXPERIENCE:

Swaragh Technologies | UI Developer (July/2021 - September/2023)

- Collaborated with design and development teams to create responsive and visually appealing user interfaces for web applications using HTML, CSS, and JavaScript.
- Implemented UI/UX principles to enhance user interaction and overall user experience.
- Conducted client meetings, gathering requirements and ensuring clear communication throughout project lifecycles.
- Worked on optimizing code and assets for improved performance and scalability.
- Contributed to the launch of a mobile-responsive web application, resulting in increase in user engagement within the first month.

PROJECT DETAILS:

Project Count : 15+ Projects, AMC Projects [Maintained 20 websites]
Domain : School, Colleges, Construction, Doctor Portfolio, and others
Projects :
Industrial

STRATACACHE | Software Developer
(March/2024 - September/2024)

PROJECT DETAILS: Scala.com Website Development Using WordPress

- **Description:** Developed scala.com using WordPress, creating a comprehensive site with four distinct subdirectories to enhance user navigation and content organization.
- **Responsive Design:** Ensured the website was fully responsive for optimal viewing across various devices and screen sizes.
- **Collaboration:** Worked closely with designers, developers, and content creators to deliver cohesive and high-quality website development by using WordPress.
- **Outcome:** Successfully launched scala.com, featuring well-structured subdirectories, providing users with a seamless and informative online experience, and received positive feedback from stakeholders.

PROJECT DETAILS: Partner portal Development

Technologies: Vue.js, JSON, PHP, API, Migration, Two-Factor Authentication, Audit

- **Description:** Developed a robust Partner Portal using Vue.js for the front end and PHP for the back end, facilitating seamless interaction through API integration.
- **Data Management:** Utilized JSON for efficient data handling and communication between client and server.
- **Migration:** Implemented data migration strategies to ensure smooth transition and integration of existing systems into the new portal.
- **Security:** Integrated Two-Factor Authentication (2FA) to enhance security and user verification.
- **Compliance:** Conducted thorough audits to ensure compliance with security protocols and data integrity.

PROJECT DETAILS: DAIL Virtual Project (Player and Mobile App)

- **Technologies:** Vue.js, QR Code Scanning, Mobile App Integration, Map Path Drawing
- **Description:** Developed an innovative virtual system for airports, allowing users to scan boarding passes or QR codes to automatically open interactive maps on their mobile devices. This feature enhances navigation within the airport.
- **Interactive Maps:** Integrated dynamic map path drawing, enabling users to visualize routes and navigate the airport efficiently using their mobile app.
- **Collaboration:** Worked closely with the development and design teams to ensure a cohesive user experience across the airport player and mobile platforms.
- **Outcome:** Successfully launched the DAIL virtual system, providing an intuitive, real-time map interface for travelers, receiving positive feedback for improving airport navigation.

KEY SKILLS:

- UI Design Implementation
- UI Design Development
- Agile Problem Solving
- UI Security and Control
- User Need Analysis
- Team Coordination and Custom Service

TECHNICAL SKILLS:

- HTML5 / CSS3 / Media Query
 - JavaScript
 - Vue.js
 - WordPress
 - MySQL
 - JSON
 - Figma
-

ROLES AND RESPONSIBILITIES:

- UI Design Development & Implementation
- Implemented end-to-end UI Designs to Provide user-friendly website for the company and its clients.
- Gathered real-world intelligence from WEBSITES to identify and fix UI issues.
- Written clean, maintainable code using HTML, CSS, and to build UI Components and features.
- I ensured consistent and effective communication with clients throughout projects, fostering clear and collaborative interactions to meet their needs and expectations.
- Worked closely with developers, designers, and content creators, ensuring cohesive project development and successful launches, including collaborative efforts in projects like Scala.com, Partner Portal, and DAIL Virtual Project.
- Integrated advanced security features, such as Two-Factor Authentication, and conducted audits to ensure data integrity and compliance in projects like Partner Portal Development.

ACADEMIC DETAILS:

- MCA from Sambhram Academy College, Bengaluru (Bangalore City University)
- BCA from Seshadripuram First Grade college (Bangalore University)
